FEEDING GUIDE

For the amount to feed your dog, consult the feeding chart below. The food may be fed dry or moistened with warm water.

ALWAYS ENSURE THAT PLENTY OF CLEAN, FRESH DRINKING WATER IS AVAILABLE AND TAKEN BY YOUR DOG.

When introducing your dog to a new food, introduce it slowly, mixing it with the existing food and gradually increase the proportion over a two week period until you are only feeding the new food.

FEEDING CHART

	WEIGHT OF DOG	DAILY FEED
Small	Less than 10 kg	120-250 grams
Small-Medium	10-20 kg	250-380 grams
Medium-Large	20-35 kg	380-600 grams
Large	More than 25 kg	600 grams or more

The feeding guidelines provided should be used as a starting point. The exact feeding amount for your dog will depend on many factors including age, breed, weight, sex, activity level, temperament, emotional state and general overall health. In general, your dog's needs and appearance should govern the amount fed. Feed to maintain a lean, active condition.
