STORAGE INSTRUCTIONS

Always fold the pack top down after use, store in a cool, dry place.

FEEDING GUIDE

Introduce this food gradually, increasing the amount over 5 - 7 days. This food should be fed in a controlled daily quantity over several meals and in accordance with the expected adult bodyweight and age of your puppy.

ALWAYS ENSURE THAT PLENTY OF CLEAN, FRESH DRINKING WATER IS AVAILABLE AND TAKEN BY YOUR PUPPY / DOG.

For the amount to feed your puppy consult the feeding chart below.

FEEDING CHART

Puppy Weight	Expected Adult Weight of Dog	Weaning 12 Weeks (grams/day)	3-5 Months (grams/day)	5-8 Months (grams/day)	8-12 Months (grams/day)
1-3 kg	Up to 5 kg	110	100	90	80
3-5 kg	5-15 kg	110-175	100-160	90-130	80-115
5-10 kg	15-25 kg	175-275	160-275	130-225	115-175
10-15 kg	25-35 kg	275-400	275-300	225-300	175-250
15-20 kg	35-45 kg	400-475	350-450	300-375	250-300
20-25 kg	More than 45 kg	475-575	450-550	375-400	300-375

The feeding guidelines provided should be used as a starting point. The exact feeding amount for your puppy will depend on many factors including age, breed, weight, sex, activity level, temperament, emotional state and general overall health. In general, your puppy's needs and appearance should govern the amount fed.

WEANING

Initially introduce this food at about 3-4 weeks of age. Moisten with an equal amount of warm water to assist weaning pups with their transition to solid feed. Serve small amounts of food six times a day. After weaning gradually reduce the number of meals and feed the puppies as much as they will eat in 10-15 minutes. Feed 2-3 times daily. This food may then be fed dry or moistened with warm water.
