

Quality comes first

H J Lea Oakes have a milling heritage that stretches back to 1675, so naturally we know a thing or two about feeds. All H J Lea Oakes feeds come with the assurance that they are made under the Universal Feed Assurance Scheme.

Availability

Most products are stocked at one of our two shops and a limited stock is available at Aston Mill (please ring before collection to avoid disappointment).

Wild Bird Feed

Available at H J Lea Oakes
Pet Food Superstores
and Aston Mill

Wild Bird Feed

Wild Bird Seed Mix

**Oil—2.75% Protein—7.5% Fibre-2.5%
Ash-1.0%**

A high quality all year round wild bird feed, containing a high level of seeds, grains, oat screenings and soya oil. The palatable mix is sure to encourage a huge variety of garden birds in to your garden. The mix works best when fed using bird tables, a variety of which are available from Congleton and Wheelock stores.

Expert Budgie Seed

The Expert Budgie Seed consist of selected nutritional needs for your budgie. Packed with essential vitamins and minerals to help keep your bird healthy and full of life.

Wild Bird Peanuts

Peanuts are rich in fat and are liked by tits, house sparrows, greenfinches, great spotted woodpecker and siskin's. We recommend the peanuts to be fed out of a metal bird feeder, to encourage smaller birds to feed. We source our peanuts from a reliable source reducing the aflatoxin risk associated with peanuts.

Tips....

Feed should be changed regularly and stored correctly to help prevent the food becoming mouldy and contaminated.

Feeding in the winter is more beneficial to wild-birds but food shortages can occur at any time of the year, feeding all year round will give the birds a better chance of survival.

There is a variety of Bird Feeders, Bird Tables and Bird Houses available of our Pet Food Superstores.

Some feeds are easier to eat on different feeders.

Seeds are better enjoyed from a metal feeder.

As well as the Bird Products listed in the leaflet the Superstore stock a range of Bird Foods, Bird Treats and Bird Accessories.

Parakeet Seed

It is important that a Parakeets diet consists of Parakeet seeds, it is healthy and full of nutrition to help the birds playfulness. It can be used all year round as part of a daily diet. Birds tend to take the seed out of it's shell as they love exploring their food, the shells then need to be removed.

Black Sunflower Seed

Black sunflower seeds are a great all year-round feed, and are often more popular to birds than peanuts. The black sunflower seeds have a higher oil content than striped ones and therefore are better for attracting a bigger variety of birds. Seeds help to reduce waste and have ease of handling.

Mixed Corn

**Oil 2.75% Protein 10.0% Fibre 2.0% Ash
1.5%**

This is a complementary feed suitable for feeding to adult poultry. The product contains a mixture of Maize and Wheat, to be enjoyed by all types of adult poultry.
